

## **Welcome Attorney Truth Trooper**

It is indeed refreshing and reassuring to know that members of the Bar are among those devoted to the restoration of the rule of law and the resurrection of the Republic. Your role in this effort is of great importance.

The Tax Honesty Community has been guided by pseudo-attorneys under designations like "paralegal", "lay attorney" or "lawyer (but not an attorney)". Since they are not bound by either law or good practice, these "lay attorneys" are often followed over qualified attorneys because can provide people who are usually in desperate straits with whatever answers they want to hear. While most have good and even noble intentions, they have more often than not led their "clients" into harm's way. The IRS and the federal government and courts that back them up are dangerous enough without being handicapped by a lack of qualified representation.

Thus, having qualified attorneys who have the benefit of not only the theory and principles of law but the practical aspects of the law, as well, is of critical, even vital, importance.

We are asking, of course, that you participate in the letter-writing and other aspects of the campaign, but we also need for you to provide additional services to the cause.

For example, we would appreciate your submitting the issues to law reviews in your state and would like for you to submit an article to your state bar journal. The issues and authorities are clearly set out in the Memorandum In Support of Motion to Dismiss filed in the Tom Cryer case in Shreveport, Louisiana. That authoritative and compelling Memo is available for download at [LieFreeZone.com](http://LieFreeZone.com).

The memorandum alone may be sufficient to spur a law review to issue an article on the subject. Providing a condensed version of the memo

to the bar journal as an article (e.g., "Is the Income Tax Constitutional As Applied") would be a simple task for an attorney.

Lawyers are also needed to provide information, guidance and advice to T-Troopers who are in the process of planning and conducting FREE Seminars and demonstrations.

Other examples of legal support for the overall group would be:

- Responses to threats and intimidation by the IRS
- Demands and threats of litigation to papers or magazines refusing to run informational or FREE Seminar ads
- Legal advice to groups planning demonstrations or protest activities
- Defense of any demonstrator or seminar conductor arrested or charged, e.g., disturbing the peace, trespassing (which will not happen unless legal advice is disregarded)
- Attend FREE Seminars to answer legal questions and validate the presentation.

If you are able to persuade any law reviews to publish an article questioning the validity and scope of the income tax law, please report that success to us immediately (particularly if the law review article is favorable) at [Legal@TruthAttack.org](mailto:Legal@TruthAttack.org). Such an event would be cause for a major PR distribution.

Likewise, if you are able to publish an article raising the issue in your state bar journal, that would be a major coup that we would be extremely interested in knowing about ([Legal@TruthAttack.org](mailto:Legal@TruthAttack.org)). We would certainly want our PR specialists to arrange for widespread distribution and attention for your article with the media and the same national distribution across the internet by our IT and Blogging experts.

Again, thank you for enlisting as a T-Trooper and for the additional

contribution of your skill and knowledge as an attorney. With your help we will prevail.
